

We sincerely thank everyone who supported us all this time. Thank you for being with us. The regional parent committee, as well as activists of the parent organization of the Ulyanovsk region, created a single parent committee in all schools in the region. Our region, by right, is one of the most advanced in the country, and we can proudly say this. We have something to be proud of! This year, the Regional Council of the Parents' Community of the Ulyanovsk Region will hold a number of educational events. I am sure that all of them will be held at the highest level. Parents are sincerely interested in making it clear to the school, and educators, and teachers who they are, and most importantly, what they want from the school. Parents especially noted that they were pleased that many organizations and kindergartens in the region became participants in School Safety Days, which were held under the auspices of Governor Sergey Morozov. The government of the Ulyanovsk region supports and encourages such cooperation in every possible way. Protocols on such actions, as a rule, are sent to local authorities, and this contributes to the observance of the safety rules for children on the territory of the educational organization. In 2014, a special commission was created in the Ulyanovsk region on the basis of the Governor's order. Now, during the inspection of the work of the school, local administrations will closely monitor how teachers and educators prevent the use of drugs by children. In this regard, parent organizations demand that negligent teachers and educators who violate the rules for the safety of children be held accountable. This year for parenting organizations of the Ulyanovsk areas special. It's time to take stock. At a meeting in the Ministry of Education and Science of the Russian Federation on February 22, 2015, the results of the activities of bodies and institutions of the prevention system in 2014 were presented. The general plan of work of the department of education of the Ulyanovsk region in 2014 was presented the next day, February 23, 2015. It should be emphasized that the Department of Education, as never before, actively cooperates with parent organizations and social services and provides real assistance in respecting the rights of children. Diagnosing families and children for drug

use. Coordinating the work of groups of public censure to combat the spread of drugs among minors. An important component of the work of the Department of Education is extracurricular activities. Employees of the department give recommendations on the development of venues and events. Thus, in recent years, actions aimed at preventing neglect and juvenile delinquency have become popular. The Open School project, within the framework of which we conduct interactive quizzes on the topic of safe behavior on the roads and in public places, allows parents of teenagers who care about road safety to become better acquainted with the rules of road safety. And the action "Classroom Attendant" allows the teacher
